CHRISTIAN GARCIA

Software Engineer | Full Stack Developer | Problem Solver

(910) 524 5568 • christian.jgarcia03@gmail.com • linkedin.com/in/cjgarca/ • Wilmington, North Carolina

Summary

Motivated Full Stack Developer with hands-on experience delivering high-quality code and solutions in Java, JavaScript, and C#. Skilled at collaborating in fast-paced environments and continuously advancing knowledge of emerging technologies. Proficient in Agile principles, DevOps practices, and the software development lifecycle, with a demonstrated ability to solve complex problems. Passionate and eager to contribute to a dynamic team, leveraging skills to create innovative and impactful solutions.

Experience

Tyhacz Studios — Wilmington, NC

Full Stack Developer - Contract — 11/2024 - Present

- Developed and maintained full stack applications using React, Next.js, and React Native, delivering cross-platform functionality
- Built scalable backend APIs with Express.js, PostgreSQL, and MongoDB, ensuring efficient data flow and storage
- Wrote clean, type-safe code using TypeScript, contributing to long-term maintainability and fewer runtime errors
- Collaborated on GitHub, participated in code reviews, and followed CI/CD best practices for smooth deployments
- Completed tasks and feature requests on time through agile workflows, consistently meeting deadlines and project goals

Stiegler EdTech — Wilmington, NC

Full Stack Developer — 05/2024 - 01/2025

- Delivered high-quality code on schedule, adhering to best practices and project standards.
- Designed and implemented efficient Fullstack Applications using React, Spring/Springboot, Express/Node.js, Docker, and AWS services.
- Built and integrated APIs with third-party services, leveraging .NET Core and AWS tools for scalable deployments.
- Conducted code reviews and implemented CI/CD pipelines and Docker to enhance maintainability and speed.
- Worked in an Agile/Scrum environment, utilizing tools like Jira to ensure effective team collaboration.

Projects - github.com/cjgarcia12

Portfolio Website

Developed a responsive, interactive portfolio featuring 3D models and animations using React, Three.js, and TailwindCSS (https://cjgarcia.uno)

Rep4y - P2P Payments

Developed a PERN stack app for P2P recurring payments with Supabase authentication and PayPal API sandbox testing. As well as a CI/CD Pipeline for continuous development.

Pathfinding Algorithm Visualizer

An interactive React tool built with Vite to visualize BFS and DFS algorithms on customizable mazes.

Education/Training/Courses

IOS App Development Bootcamp — Udemy: Angela Yu Dec 2024 - May 2024

2024 Web Development Bootcamp — Udemy: Angela Yu

React, The Complete Guide 2024 (incl. Next.js, Redux) — Udemy: Maximilian Schwarzmüller

C# .NET Bootcamp — Zero To Mastery: Claudio Bernasconi

Data Structures + Algorithms — Zero To Mastery: Andrei Neagoie

Skills

Java, C# .NET, Razor Pages, TypeScript, JavaScript, Python, Bash, HTML/CSS, Agile/Scrum, Leadership/Training, Swift, React.js/Next.js/React Native, Flutter, Git/GitHub, Spring/Spring Boot, AWS, Supabase, Shopify Development, Docker, PostgreSQL/SQLite, Test Driven Development (TDD), Agile Methodologies (Scrum), SQL Server, CI/CD Pipelines, Linux, Data Structures
